

Project Reflection Questions

1. What went well with the project?
2. What did I learn about myself through doing this project?
3. Was the driving question answered? How or Why not?
4. What problems arose and how did we handle them?
5. What could we do next time to avoid these problems?
6. How could the project have been better designed? (This is for Ms. Marlott and Ms. Sheely to consider for next time.)
